- Medical Managed Care
- Self-Insured Groups
- Alternative Risk Financing
- RMIS Technology

Avizent™ experts partner with WV clients to achieve desired results

West Virginia's workers' compensation system continues to undergo significant reform and Avizent's claims and risk management experts are on top of it all the way. Avizent integrates the specialty service expertise of the Frank Gates Service Company and Attenta, and has a combined 100 years of experience in risk and claims management. As a market leader, we created the first approved managed healthcare program in the state of West Virginia in 2005. We continue to manage this program today, along with other medical cost saving solutions.

Our primary goal is to protect each client's bottom line by monitoring and reducing worker's compensation costs. Our experienced Charleston-based professionals can assist in managing all aspects of your program, freeing you to focus on your business.

We provide our West Virginia clients with:

- Complete risk management services;
- Proven self-insured and insured claims services;
- Claims management oversight of insurance policy holders;
- Policy, premium, NCCI class code assignment, and rating analysis oversight;
- An IMHCP provider network through 4COMP;
- Self-insurance studies, group program analysis, and alternative risk program analysis;
- Assistance with light-duty and return-to-work programs;
- Agent of Record services;
- Options for integrated medical case management; and
- Educational seminars and updates regarding workers' compensation changes.

Clients working with us enjoy significant savings, which can only be achieved through our experienced and aggressive claims management services. Our proven performance has resulted in decreased reserves, reduced open case loads and declining medical costs.
